4 DECEMBER 2021 – 15 MAY 2022

MUSEUM MACAN

Welcome to The Lost Jungle!
 This is an interactive multimedia installation created by the artist collective Tromarama. Experience it in an actual jungle atmosphere where the cloud formation, rain intensity, the breeze through the trees, and the movement of the animals living in the jungle are influenced by the current weather in Jakarta, gathered in real time from publicly accessible data.
 On your journey, you might encounter some strange and whimsical creatures which have been created by children of home. You too can join in to The Lost Jungle - MakeIt, and create new creatures using the patterns, shapes, and colours inspired by real, endangered species.
 Also look out for another artwork called ARFC Fables (2021), which is a projection on screens reported to people as they move through the gallery - how will this work respond to you?
 To create The Lost Jungle, the artists have been working with biologists to research the relationship between nature, the natural environment, and technology. What are the challenges that have caused a major impact on the earth's biodiversity and ecology - and which technology helps us to stay connected to each other, can we use it to be more mindful of our impact on the planet?
 Tromarama: The Lost Jungle is a UOB Museum MACAN Children's Art Space Commission, a collection by artists dedicated to children and their families.
